Jabra BIZ™ 620 MS BEST VALUE PROFESSIONAL HEADSET FOR ENHANCED UC EXPERIENCE

The Jabra BIZ 620 MS headset is the ultimate entry-level headset for first time users of Unified Communications (UC) with Microsoft® Lync™. This plug-and-play solution combines superior audio performance and durability with all the hands-free advantages of a professional Jabra headset.

WELCOME TO TRUE WIDEBAND AUDIO QUALITY

For users of Microsoft Lync the headset is your point of delivery for the entire UC system. It's where the vision of hassle-free and intuitive VoIP in full wideband sound quality comes to life. So why settle for anything less, when you can get a professional grade headset which supports all these great features?

Jabra BIZ 620 MS is designed to enhance the experience with Microsoft Lync by providing full wideband audio. True wideband sound gives you outstanding speech clarity. The noise-canceling microphone effectively cuts off unwanted background noise. As a result, you will feel more comfortable and be able to work more efficiently right from day one.

ENHANCED USER EXPERIENCE - LONG SERVICE LIFE

The Jabra BIZ 620 MS is plug-and-play with Microsoft Lync. Integrated in-line call control buttons enable you to answer/end calls and adjust volume directly from the headset. No drivers or additional software are needed. Microsoft Lync automatically recognizes the headset and the integrated controls. Just plug the headset into the USB port of your PC and you're all set!

The Jabra BIZ 620 MS is available with mono speakers for quiet work environments and duo speakers for noisy or open plan offices. Both models have successfully passed Jabra's strict quality assurance tests for professional headsets to ensure long service life.
